Report on Expert lectures

Expert Lecture on 'Basics of Refrigeration and Air Conditioning '

Lecture conducted on 30/12/2013
Time 10:00 AM to 05:00 PM
Audience : Third year engineering students
Venue - Mechanical seminar hall
Resource Person : Mr. M.C. Billimoria, Mr. Billimoria has a vast experience of over 36 years in the refrigeration and air conditioning industry. He has worked with Voltas limited for 36 years. He is mechanical engineer and completed his masters from IIT Mumbai in Refrigeration Engineering. He retired from voltas as a Chief Manager.

Mr. Billimoria explained the basic concepts to the students in very lucid and simple manner with real life examples. He also demonstrated the working of an air conditioner with an actual unit so the students were very well able to relate theory and the actual practice. The students groups were formed and tasks were given to them to facilitate learning. At the end of the session an innovative quiz was also taken to check the understanding by the students.

Prof. A.S.Dube ,Mechanical engineering department took special efforts for the successful organization of the event.
