Report of "Awareness on IEEE"

Name of Program: Awareness on IEEE
Venue: TEIT Class room, IT DEPARTMENT
Date of Program: 06th Aug. 2018
Coordinator: Prof.Sneha A. Khaire

A One Day Program on 'Awareness on IEEE' for SEIT students was successfully conducted on Monday, **06th August 2018** at TEIT Class Room, Information Technology Department, SITRC. There were around 31 students attended the expert talk. Before the expert session, the speakers were introduced and facilitated by Prof. Sneha A. Khaire . The speakers were Sayali Birare, Dynanesh Aher an IEEE member(Student), along with Prof. Nikhil L. Kulkarni (IEDC Convener). The speakers briefed on IEEE membership which offers access to technical innovation, cutting-edge information, networking opportunities, and exclusive member benefits. Members support IEEE's mission to advance technology for humanity and the profession, while memberships build a platform to introduce careers in technology to students around the world. Its mission is to foster technological innovation and excellence for the benefit of humanity. Vision is, IEEE will be essential to the global technical community and to technical professionals everywhere, and be universally recognized for the contributions of technology and of technical professionals in improving global conditions IEEE and its members inspire a global community to innovate for a better tomorrow through highly cited publications, conferences, technology standards, and professional and educational activities. IEEE is the trusted "voice" for designing, registering, and innovation data around the world. As the world's biggest specialized proficient association, IEEE offers various approaches to get required with specialized and nearby networks. These people group are dynamic members in research and origin, gatherings, and vital discussions about the present most significant specialized themes locally and internationally. It offers an extensive variety of learning and profession improvement openings inside the designing sciences, look into, and other innovation regions. The objective of these projects is to guarantee the development of ability and learning among experts and to encourage singular promise to proceeding with training among IEEE individuals, the building and academic network, and the overall population. In conclusion there was collaboration with understudies the individuals who are keen on the enrollment and the reaction was too great.
