Report of “Skill Based Session on C Language”

Name of Program: “ Skill Based Session on “C Language”

Venue: Programming Laboratory, IT Department.

Conducted by: IT Department.

Date of Program: 27th July 2019

Audience: Students of SE

Resource Person: Mrs. Shital Bedse

Outcome: Student understand the knowledge about the number systems this will be very useful for bitwise operations. Student develop programs using the basic elements like control statements, Arrays and Strings.

Sandip Institute of Technology & Research Center Department of Information Technology Organized a “**Skill Based Session on C Language**” for the students on 27th July, 2019. The training program was conducted by Mrs. Shital Bedse,Nashik.

C is the most widely used computer language.The course aims to provide exposure to problem-solving through programming. It aims to train the student to the basic concepts of the C-programming language. This course involves a lab component which is designed to give the student hands-on experience with the concepts.

Now a days,computer is often a very handy tool when solving complex technical problems in engineering and scientific explorations. Programming a computer is a fundamental task in finding solutions to such problems. This course is being offered in order to train the Second year Engineering students in IT department in the fundamentals of programming. Around 25 students attended the Program. Practical sessions improved students programming skills.
