Summary Report on SAP

The department of Computer Engineering of Sandip Foundation's, Sandip Institute of Technology and Research Center organized a seminar *Global trends in SAP* on 13th August 2013. The session was started with welcome & felicitation of the resource person Mr. Anand Shirsath from Arete Technology. He was discussed that how SAP is widely used ERP application software that has been successfully accepted by the industries. Using SAP an organization can meet their strategic business goals. Most of the manufacturing companies are now trying to implement the best practices of ERP. The business aims for growth and profit. To have a sustained growth it is important for the organization to optimize their operation, reduce cost and to increase the sale. After completion of his talk, for next 1 Hour he established one to one communication with interested students.

To attend the same workshop total 95 students from Computer Engineering were participated. At the end of event students were appreciated. The Session will be

concluded with vote of thanks.
