

**Sandip Foundation's
Sandip Institute of Technology & Research Centre, Nashik
Department of Electrical Engineering**

Date : 22/12/2016

Name of the VAP: Basics of C Programming.

Duration of the Course : 40 Hrs. (Starting Date :22/12/2016)

Name of Event Coordinator:

Prof. Sadaphale Sir

(Asst. Prof. - Electrical Dept., SITRC, Nashik)

Name of resource person:

- 1. Prof. Samadhan Sonavane**
- 2. Prof. Amit Palve**
- 3. Prof. Rakesh Shirsath**

Objectives :

- To make the student understand about the basics of C Programming .
- To make them understand the various logical and analytical approach used in various C programs.
- To understand the various engineering applications using C Programs.

Outcome :

- Students understood the basics of C programming language and also understood the logic used in coding the C program.
- Numerical Methods solving techniques using C program was the added advantage of this VAP.
- Student understood the use of functions, pointers, arrays in a detailed manner which are mostly used in all the engineering problems.
