

Sandip Foundation's
Sandip Institute of Technology & Research Centre, Nashik
Department of Electronics & Telecommunication

Date: 02/09/2016

Topic of seminar: “Humanoid Robot”

Location: Mechanical Seminar Hall, SITRC, Nashik

Name of resource persons: Mr. Hemachandra Singha, Nashik

Objectives:

- To Create interest among students about robot and its applications.
- To introduce students about latest technologies available in the field of robotics.
- To impart knowledge about various electronics devices, circuits, processors for development of robot.

Summary of the event:

The Department of Electronics and Telecommunication engineering, SITRC successfully conducted seminar on " Humanoid Robot" for 2nd year students on 2 Sep. 2016. The resource person was Mr. Hemachandra Singha from Nashik.

Outcomes:

- 1) Students understand the importance of role of robot in the life.
- 2) Students get familiar about various technologies available for development of robot and its applications.
- 3) Students shown their interest to learn different technologies & pursue their education in the same field and form robotics club.
