

**Sandip Foundation's  
Sandip Institute of Technology & Research Centre, Nashik  
Department of Electronics & Telecommunication**

---

**Date: 04/09/2013**

**Name of Event:** Opportunities to E&TC Engineers in Industry

**Name of resource person:** Mr. Sanjay Chaudhari  
Electronics Study Center, Jalgaon

**Objectives:**

1. To provide the knowledge related to Electronics components identification, testing & their applications in industry.
2. Enhance their practical skills by using measuring instruments for maintenance and other applications.
3. PCB designing manually as well as by using PC software, etching, drilling.

**Outcome:** Students are now updated with components identification, testing etc, as well as use of measuring instruments for maintenance and various ways of PCB designing.
