

**Sandip Foundation's
Sandip Institute of Technology & Research Centre, Nashik
Department of Electronics & Telecommunication**

Date: 9th April 2018

Name of Event: Expert Lecture on “Pattern Recognition for Real Time Embedded System”

Name of resource person: Dr. G. S. Gawande (Professor and Head of E&TC Department)

Name and Address of Company: Department of Electronics & Telecommunication Engineering, Shri Sant Gajanan Maharaj College of Engineering (SSGM COE), Shegaon.

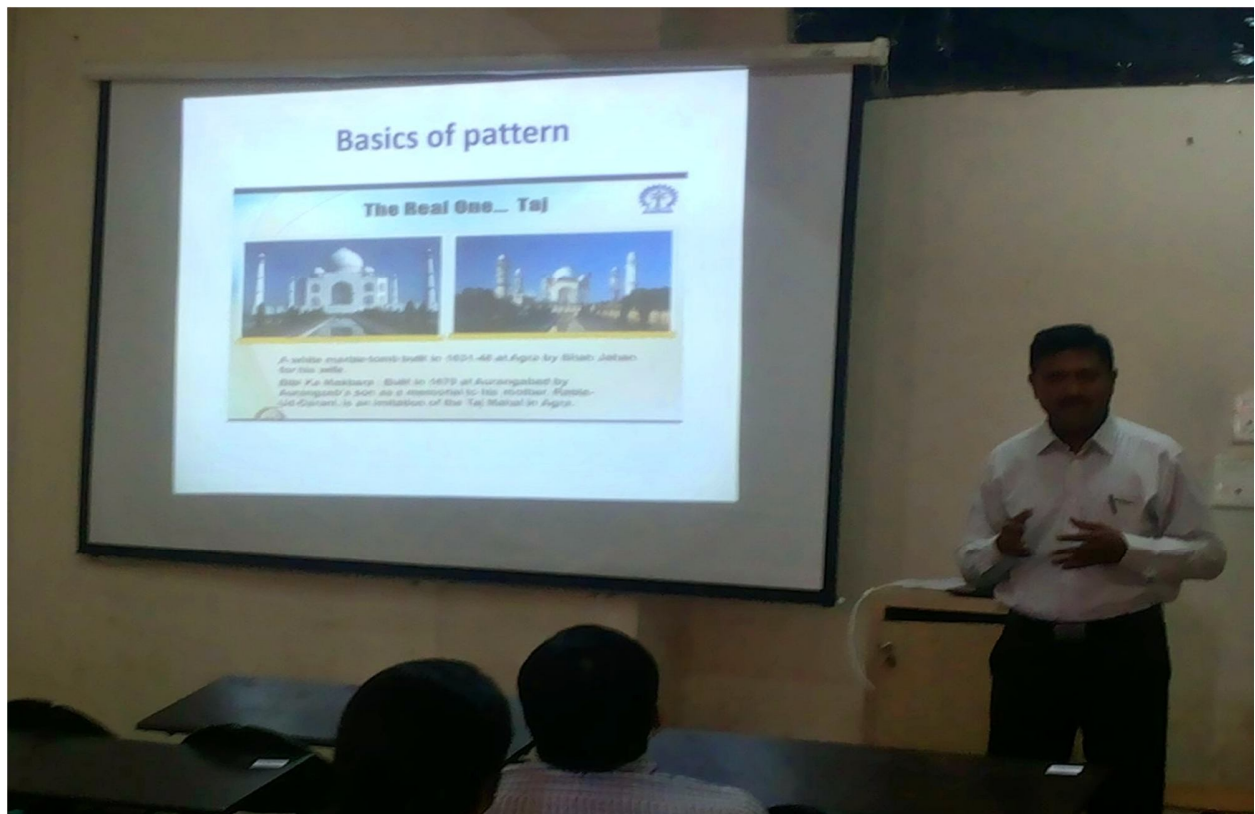

Objectives:

1. To explain the fundamentals of pattern recognition & associated terminologies.
2. To understand the mathematical analysis to recognize the various patterns.
3. To understand the role of pattern recognition in embedded system design.

Outcome:

1. Students understood what is mean by pattern recognition with its fundamental Terminologies
2. Students understood mathematical analysis to recognize the any given pattern.
3. Students understood the several application of pattern recognition with the detail study of its role in embedded system design.
