

Sandip Foundation's
Sandip Institute of Technology & Research Centre, Nashik
Department of Electronics & Telecommunication Engineering

Name of Event: Expert Lecture on Signal Processing

Date of Event: 25/04/2018

Type of the Event: Expert Lecture

Duration of Event: One Day

Name of resource person: Dr. C.N.Deshmukh

Name and Address of Company: PRMIOTR, Amravati

Name of Event Coordinator: Prof. P. A. Dhulekar & Prof. S. J. Pawar

Detail of Participant with Count: 22 participants (ME Students and Faculties)

Revenue Generated Details: NA

Objectives:

1. To understand the research opportunities in the field of signal processing and Communication
2. To explain the need of electronic engineer in medical image processing.
3. To understand the role of signal processing in mobile communication.

Outcomes:

1. Students identified the various research opportunities in the field of signal processing And communication
2. Students understood significance of medical image processing and role of electronic Engineer to evolve the medical era
3. Students understood the role of signal processing in mobile communication.

About the Event: One day expert lecture has been arranged by electronics and telecommunication engineering department for master of engineering students as well as faculties of the department. The resource person for this event was Dr. C.N.Deshmukh from PRMIOTR, Amravati. He has majorly focused on various research opportunities in the field of signal processing and communication and also explained the need of electronic engineer

in medical image processing. Moreover he highlighted the significance of signal processing in mobile communication.
