

**Sandip Foundation's
Sandip Institute of Technology & Research Centre, Nashik
Department of Electrical Engineering**

Name of Event: Industrial Visit to Suvidhi Industries

**Address of the Visit: Suvidhi Industries, Gangamai buildings,
Opposite Siemens, Ambad.**

Date of the Visit : 13th March 2016

Name of Event Coordinator:

Prof. Anuj D. Pandey

(Asst. Prof. - Electrical Dept., SITRC, Nashik)

Name of staff accompanied :

1. Prof. R.B. Sadaphale
2. Prof. Sukhada Deshmukh
3. Prof. Ravindra Date

Objectives :

- To introduce the students to understand the real electrical components such as transformer, reactors, CT's and PT's.
- To make them understand the construction of transformer, reactors, CT's and PT's
- To practically understand the various connections and their testing.

Outcome :

- Students understood the various components manufactured at suvidhi, mainly transformers, CT's, PT's.
- After the construction testing of these components was done at the company which helped them to understand the practical aspect of these equipments when they come in use.
