Academic Year 2018-19

Report on Industrial Visit

Event Title: Industrial visit to Yash Capacitor Pvt Ltd. Nashik

Event Date: 31st August 2018

Event Conduction Duration: 10.10 am to 1.00 pm

Event Venue: Yash Capacitor Pvt Ltd. Ambad, Nashik

Name of Visit Co-ordinator: 1.Prof.D S Badgajar 2.Prof.Monika Bishi

No. of participants : SE- 52 Students

Event Objective:

- To classify different types of capacitors.
- To understand the manufacturing process and testing of different capacitors
- To know the application of capacitor in various sectors and to get an idea about different range of capacitance and their power rating

Event Outcome:

- Students understood the manufacturing, testing and rating of capacitance.
- Students got the thorough knowledge about several material used in the manufacturing process of capacitance and also came to know about the different steps of manufacturing.
- Students learned the application of several range of capacitors and their applications.

Instructor explaining different materials used in capacitor making process

Students observing the Manufacturing of Different kinds of Capacitors

SE (ELECTRICAL) Students at YASH CAPACITORS PVT LTD.
