Date: 14/12/2012

Name of Event: Workshop on " Quantative Aptitude Training " for TE.

Date of Event : 10/12/2012 - 14/12/2012

Name of resource person: Innovation's Unlimited, Bengaluru, Karnataka

Venue of Event : Sandip Institute of Technology & Research Centre, (Department of Electronics & Telecommunication),Nashik.

Objectives: This session helps student improve their aptitude skills. In today's time, aptitude tests have become an essential part of all psychological assessments in current job scenario. They are designed to measure a candidate's ability to perform well in a given situation or in a specific domain area. A candidate's ability to comprehend instructions, to apply previously acquired knowledge and skills, to make good inferences and to manage emotions while doing any of these can be defined as Aptitude. It helps the employers to analyze how a candidate would perform if inducted in a specific role and whether he/she is suitable for that role or not. There is no doubt in it that whereas newer opportunities for employment are emerging fast, selecting a career has become equally difficult.

The aptitude test can be used as a measure of the abilities of a person. These tests give the complete picture of a person's mind. The aptitude test is of a great importance for the students studying in school or those people who want to change their profession. The test will give them a precise result of what is the actual abilities of a person. The importance of an aptitude test can be understood by the fact that they being widely used now for various purposes.

If a job requires some specific skill or some particular trait in the person, it is evaluated by aptitude tests. For example, if you have applied for a data entry job, they will test your data checking skills or if you have applied for a job in the technical Field they will test your mechanical reasoning or fault diagnosing ability. Mostly, the aptitude test is used in conjugation with a personal interview or a group discussion or both for job placement. It is difficult to cheat in an aptitude test, therefore, they are considered reliable by most of the interviewers. These tests give the interviewer an idea of the natural abilities, strength and weaknesses of the interviewee.

Topics Covered:

- Quantative Aptitude
- Logical Reasoning-Verbal
- Logical Reasoning-Non-Verbal

Outcome: Through this workshop TE students get awareness about aptitude skills and can practice for aptitude which is necessary for their placements.
