### Entrepreneurship

Development Institute of India (EDII), an autonomous and a not-for-profit institute, set up in 1983, is sponsored by apex financial institutions - the IDBI Bank Ltd., IFCI Ltd., ICICI Bank Ltd. and the State Bank of India (SBI).

The Government of Gujarat pledged 23 acres of land on which stands the majestic and sprawling EDII campus. In due course of time, EDII emerged as a pioneer institution in the domain of 'Entrepreneurship'. The acknowledgement of the research expertise of EDII came in the form of the University Grants Commission (UGC) assigning the task of developing a curriculum on entrepreneurship. Subsequent to that Gujarat Government also tasked EDII to develop a textbook on entrepreneurship for the 11th & 12th standards. Moreover,

### the Entrepreneurship

Development Institute of India (EDII) is a national resource organization designated by the Government of India.

Of late, emergence of an ecosystem based on entrepreneurship has opened vast sets of opportunities for young India. The government intention to promote entrepreneurship has been articulated time and again through its initiatives like Startup India, Stand up India, Digital India, Make India, AatmaNirbhar Bharat and Vocal for Local Initiative. Even the Hon'ble Prime Minister's vision to turn India into a USD 5 Trillion economy by the year 2024-25 is possible only through imbibing entrepreneurship at a large scale. The massive emerging ecosystem of entrepreneurship requires trained professionals who are able to take the leadership position and steer the entrepreneurial ambitions. In response to the governments' initiatives to promote entrepreneurship, Entrepreneurship Development Institute of India being a national resource organization reaching out to all the academic institutions. The objective to reach out institutions at large is to contribute its share to nation-building through promoting entrepreneurship among young minds. We are sure; an online awareness cum sensitization session on 'Entrepreneurship as a Career Choice' among the students will be a great success.

On this backdrop, we propose to hold a webinar free of cost with an aim to provide a kaleidoscopic view of the emerging entrepreneurial ecosystem for young India and assist them in navigating through the idea of entrepreneurship as a career choice. The proposed one-hour online session is designed to help students to understand the fundamental nuances and envision career opportunities in the field of entrepreneurship.
