World Health Day is observed every year on April 7 since 1950. Each year, there is a specific theme for World Health Day. The theme for World Health Day 2021 is "*Building a fairer, healthier world for everyone*". World Health Day 2021 comes at a time when the Covid-19 pandemic has undercut recent health gains, pushed more people into poverty and food insecurity, and amplified gender, social and health inequities.
