Outcomes:

International Women's Day (March 8) is a global day for celebrating the social, economic, cultural and political achievements of women. The day also marks a call to action for accelerating gender parity. International Women's Day is a day dedicated to honoring the achievements of women throughout history and all across the globe, and is typically a day for women from all different backgrounds and cultures to band together to fight for gender parity and women's rights. This year, the theme for International Women's Day is, "Women in leadership: Achieving an equal future in a COVID-19 world," celebrates the tremendous efforts by women and girls around the world in shaping a more equal future and recovery from the COVID-19 pandemic and highlights the gaps that remain.

Women's Grievance committee and WIE in association with the Department of Electronics and Telecommunication Engineering has organized a Quiz competition for students. More than 35 students participated this online activity.
