Dr. Gayatri M. Phade, Mentor - SANDIP TBI, Nashik

Mr. Jagdish A. Patel- Incubator Manager, SANDIP™ Incubator Association, Nashik

Prof. Swati A. Pawar-Convener MoE IIC Cell

Name of Resource Person:

Mr. Jagdish A. Patel- Incubator Manager, SANDIP™ Incubator Association, Nashik

Detail of Participant with Count: 50 Startups & Students from Engineering Institute

Objectives:

1. The main objective of IPR is to create public awareness about the benefits of Intellectual property among all sections of society.
2. To stimulate the creation and growth of intellectual property by undertaking relevant measures.

Outcome:

Under Intellectual Property Rights (IPRS), the student's inventor can get copyrights, patents, design and trademarks and trade secret protection to shield an invention/creation from being duplicated or copied by another individual or business.

Intellectual property serves as the foundation of innovation in our economy. Laws protecting intellectual property also reduce the transaction costs between inventors and industry by providing information about the quality of the invention without jeopardizing the ownership of the idea.

In many developed countries, the strict enforcement of the IPR role has a huge contribution to economic growth. IPR promotes innovation which leads to economic growth. Nowadays every business in the world is the creation of Innovation. The IPR can play both negative and positive growth in economic development.
