### **1. Event Outline & Outcome of the event:**

**Outline of Program:** First Year Engg. Students of SITRC visited Sayadri Farms, Taluka -Dindori, District Nasik, on 23/01/2023 to 24/01/2023 (02 Days).

Ms.Ruchika,Site In-charge, briefed the students about the pulp extraction and export process and the required treatment units. The total strength of the students was 177, along with five faculty members. The visit was fruitful for the students and helped them observe treatment units functionally.

**Objective of the Program:** The main goal of this initiative is to educate everyone about the immense potential of farming methods. The journey of Sahyadri Farms includes a thrilling experience with nature. It is India's largest integrated fruits and vegetable processing and packaging company in action.

**Outcome of the Program:** Students understood the process of pulp extraction process and their machinery of food processing units and cloth manufacturing units
