v)	Prof (Dr) Amol D Potgantwar	Computer Engineering	
vi)	Prof. Nitin B. Patil	Electrical Engineering	
vii)	Prof Jyotiprakash G Nayak	Civil Engineering	

Agenda Item: Providing E-content during the pandemic period to support learning

Discussion:

The committee discussed the issue of providing e-content to students during the pandemic period. It was acknowledged that due to the pandemic, traditional in-person classes have been disrupted, and students have had to rely on e-learning platforms to continue their studies.

The committee recognized the importance of providing high-quality e-content to students to support their learning. It was noted that some students have experienced difficulties accessing e-content due to a lack of reliable internet access or access to appropriate devices. The committee discussed the need to address these challenges to ensure that all students have equal access to e-content.

The meeting was adjourned at 11.45am. The task force was instructed to start their investigation immediately and to report their findings at the next committee meeting.

Respectfully submitted,

[Prof (Dr) Milind M. Patil]
