3. Compose statements, phrases etc.

Summary Report of Program :

Department of Engineering Sciences and Humanities organized a guest lecture on English language improvement program for first year students. At the beginning of program speaker explained the importance and need of English language in day to day life as well as in industry. He advised students to improve vocabulary. For improvement of language he gave some tips like reading English news paper, communicating with friends in English, listening English speeches, etc. During the program some fun activities conducted for students like tongue twisters to improve pronunciation , riddle solving, homonyms, rhymes, etc that can help to increase the vocabulary. This session helped students to understand the importance of English communication which is necessary to deal with challenges in the industry. The program was concluded with vote of thanks.
