Of

“Celebration of Engineer's Day 2K23”

SANDIP
FOUNDATION

Organized By

Sandip Foundation's

Sandip Institute of Technology and Research Centre, Nashik

Department of Electronics & Telecommunication

In

Association with

Ministry of Education (MoE) Institution's Innovation Council (IIC),

Engineers without border (EWB) and Institute of Electrical and Electronics Engineers (IEEE)

Date-15th September 2023

Aim- Celebration of Engineer's Day 2K23

Objective- To provide student a platform to present their innovative ideas and gather self confidence and also to motivate students , or encourage them for such innovative ideas.

Venue- B- Building , Department of Electronics & Telecommunication, SITRC ,Nashik.

Conducted By – Sandip Foundation's Sandip Institute of Technology and Research Centre, Nashik Department of Electronics & Telecommunication in association with Ministry of Education (MoE) Institution's Innovation Council (IIC),Engineers without border (EWB) and Institute of Electrical and Electronics Engineers (IEEE).

Audience :-Students of sandip Foundation's

Event Highlights :-

A technical quiz and an idea pitching challenge were both part of the event. Dr. Gayatri M. Phade, the head of the E&TC department, conducted the opening ceremony for the technical quiz event, which was held on the ground floor, to kick off the event. Dr. Gayatri M. Phade was quoted as saying, "Take Dr. M. Visvesvarayyaguru as your role model, be confident in your mission, and sharpen your skills to meet the global industrial demands." The technical quiz competition then began, with four people per group.

The test consists of both technical and general knowledge questions. The team that successfully responded to the most queries won. 44 student groups took part in that tournament, and two of those groups won. Trophies are given to winners, along with a certificate of participation.

A glimpse of the event is below.

The second is the concept pitch competition, in which seven groups took part and presented their creative ideas to teachers. Two groups were chosen as the competition's creative idea winners from among these seven groups. As seen in the images below, a student from last year and a first-year student presents his concept to Dr. Minal Gade and Dr. Omkar Vaidya:

Out Come- Not only is the Engineer's Day celebration planned for competition, but it also provides students with a stage on which to showcase their abilities and ideas. Such activities provide students stage fright and self-assurance, which assist them develop for their future ideas.
