

Department of Electronics and Telecommunication Engineering

Name of Event: One day seminar on “Role of AI Tools in Teaching Learning Process”.

Date of Event: 5th August 2023

Type of the Event: Seminar

Duration of Event: 5th August 2023 To 5th August 2023

Name of resource person: Dr. Rahul V. Awathankar

Name and Address of Company: SITRC, Nashik

Name of Event Coordinator: Dr. Rahul V. Awathankar

Detail of Participant with Count: E&TC Department Faculty.

Objectives: The objective of the one-day seminar on the "Role of AI Tools in Teaching Learning Process" is to facilitate a dynamic and informative forum for educators to explore the transformative potential of artificial intelligence in education. Through insightful presentations, interactive discussions, and practical demonstrations, this seminar aims to equip participants with a deep understanding of how AI tools can enhance teaching methodologies, optimize learning experiences, and address the evolving needs of learners in the digital age. Attendees will gain valuable insights into best practices, ethical considerations, and emerging trends, empowering them to make informed decisions and harness the power of AI to create more effective, engaging, and inclusive learning environments.

Outcome: The one-day seminar for electronics and telecommunication engineering faculty on the "Role of AI Tools in Teaching Learning Process" yielded significant outcomes. Faculty members left the seminar equipped with a deeper understanding of how AI tools can be effectively employed in their teaching methodologies, resulting in increased student engagement and improved learning outcomes. The seminar also fostered a sense of community and collaboration among attendees, enabling them to exchange ideas, best practices, and resources for continued professional growth. Moreover, as a
