In this competitive world of Information Technology it is very much important that students can make a way for them to outer world with a bright a start, keeping this in Mind College took an initiative of training the students about how to attend an Interview. So for this Miss Salve was invited who was an expert in communication skills and resume writing. He shared his views and experiences with the students. The seminar mainly focused about how to present as a candidate in front of a interviewer and what are key features to write a resume.
