Name of Program: Intelligent Property Right Workshop

Date: 6th March 2023

Resource Person: : Mr. Kerron Vaishnav.

Staff Coordinator: Prof. V. K. Barbudhe

Name of Student Coordinator :

1.Khushi Mehata 2. Ananya Sakhare 3. Kartik Zope 4. Nikhil Dengale 5. Sahil Shinde

Venue: Computer Engineering Seminar Hall (C Building)

Aim: The essential aim of research article writing is to communicate original research findings and contribute to the existing body of knowledge in a clear, concise, and well-structured manner.

Objectives:

1. Enhancing Awareness and Understanding:

Objective: To educate participants about the various forms of intellectual property rights (IPR), including patents, copyrights, trademarks, and trade secrets, and provide a clear understanding of their significance in protecting intellectual creations.

Activities: Presentations, case studies, and interactive discussions on the different types of IPR, their scope, and real-world examples of IPR violations.

2. Empowering Participants to Protect Their Creations:

Objective: To equip participants, whether they are inventors, artists, entrepreneurs, or researchers, with practical knowledge on how to secure and enforce their intellectual property rights.

(Approved by-AICTE, New Delhi, & Govt. of Maharashtra and Permanently Affiliated to Savitribai Phule Pune University (Formerly Pune University), Pune.

Accredited with “A” grade by NAAC With CGPA Score of 3.11

NBA Accredited for Computer & Mechanical Engineering(UG Course)

Activities: Workshops on filing patent and trademark applications, copyright registration processes, and guidance on maintaining the confidentiality of trade secrets. Legal experts may provide insights into IP litigation and enforcement.

3. Promoting Ethical and Responsible Use of Intellectual Property:

Objective: To emphasize the importance of respecting the intellectual property rights of others and fostering a culture of ethical and responsible use of intellectual creations.

Activities: Ethical dilemmas and case studies that challenge participants to consider the ethical implications of various intellectual property scenarios. Discussions on fair use, open-source initiatives, and the implications of plagiarism and piracy.

Outcomes:

- Workshop participants gain a deeper understanding of the various intellectual property rights, including patents, copyrights, trademarks, and trade secrets, and how to apply them to protect their creative works or inventions effectively.
- Participants are more likely to take concrete steps to protect their intellectual property after the workshop, such as filing patent applications, registering copyrights or trademarks, or implementing better trade secret protection measures.

Summary Report of Essential of Research Article Writing

The Intellectual Property Rights Workshop, organized by the Artificial Intelligence and Data Science Department , took place on 6th March 2023 at Computer Engineering Seminar Hall. This workshop aimed to educate participants on the importance of intellectual property (IP) rights, enhance their understanding of various IP types, and empower them to protect their creative and innovative works effectively.

Understanding Intellectual Property

The Start of the workshop focused on providing participants with a solid foundation in intellectual property concepts and types.

Session 1: Introduction to Intellectual Property: The workshop commenced with an introductory session explaining the significance of intellectual property rights in the modern economy and the legal framework governing them.

Session 2: Types of Intellectual Property: Participants learned about the four main types of intellectual property rights: patents, copyrights, trademarks, and trade secrets. Each type was explored in detail, including their purpose, scope, and registration processes.

Session 3: IP Case Studies: Real-world case studies were presented to illustrate the practical implications of IP rights, emphasizing the importance of IP protection in various industries.

Empowering Participants

The same day delved into the practical aspects of IP protection and enforcement.

Session 4: Protecting Intellectual Property: Attendees gained insights into strategies for protecting their intellectual creations, including patent and trademark registration, copyright management, and trade secret safeguards.

Session 5: Ethical and Legal Considerations: The workshop explored ethical considerations in IP, emphasizing the importance of respecting the intellectual property of others and adhering to ethical practices. Legal experts provided guidance on IP infringement and enforcement.

Session 6: Interactive Workshops: Participants engaged in interactive workshops where they drafted patent claims, examined copyright registration forms, and simulated IP protection scenarios.

Key Takeaways and Participant Feedback:

Participants left the workshop with a deeper understanding of IP rights and their practical applications. Key takeaways included:

- Improved knowledge of the different types of IP rights.
- Confidence in protecting their own intellectual property.
- Enhanced awareness of ethical considerations in IP practices.
- Participant feedback was overwhelmingly positive, with many expressing gratitude for the workshop's practical approach and the valuable skills acquired.
