A seminar was organized by the Department of Artificial Intelligence and Data Science Engineering at Sandip Institute of Technology and Research Center, Nashik, with the aim of creating awareness about the current market scenario and providing information about different technologies available in the market. The seminar took place on August 6th, 2022.

The lecture began with a warm welcome and felicitation of Mrs. Komal Somani from ESDS, Nashik. Mrs. Komal Somani guided students on how they can utilize various technologies to establish their businesses. She also explained various market trends related to technology and how industries make use of different software and algorithms. The workshop was attended by 51 students.

At the end of the event, students expressed their appreciation for the session. They gained a better understanding of the importance of cloud technology and its relevance in the current industrial scenario. The workshop concluded with a vote of thanks proposed by Prof. (Dr.) Naresh Thoutam.
