of
Hobby Club Activity- Creative Reuse

A.Y. 2023-24

SANDIP
FOUNDATION

**(An autonomous institute permanently affiliated to Savitribai
Phule Pune University, Pune)**

Organized by ,
Sandip Foundation's
Department of Engineering Sciences and Humanities
Sandip Institute of Technology and Research Centre, Nashik (MS)
DTE Code: 5109

Date : 9th September 2023

Name of Program : Creative Reuse

Event Coordinator : Assistant Prof. Vandana P. Chitodkar

Participants : F.Y.B.Tech students (ESH Department)

No. of Participants : 35

Venue : A Building, SITRC, Nashik

Aim :

The workshop aim to educate participants about creative ways to repurpose waste materials, emphasizing the importance of recycling and reducing environmental impact.

Objective :

- Provide workshops and training sessions to teach upcycling techniques, enabling participants to transform waste materials into useful and aesthetically appealing products.
- Reduce the amount of waste going to landfills by promoting upcycling, thus contributing to a cleaner environment and promoting the concept of a circular economy..
- Encourage individuals to explore their creativity by transforming waste materials into artistic and functional items.
- Motivate participants to adopt sustainable practices in their daily lives, reducing waste and contributing to a greener environment.

Outcomes :

- Participants gained practical upcycling skills, empowering them to repurpose waste materials creatively. This not only enhanced their creative abilities but also equipped them with valuable skills for sustainable living.
- By diverting waste materials from landfills and repurposing them into useful products, the initiative contributed to a reduction in overall waste generation in the community, positively impacting the environment.
- Participants developed enhanced creative skills and discovered the artistic potential in items that would otherwise be considered waste. Many individuals started incorporating creative reuse into their hobbies and artistic pursuits.
- Participants actively sought out opportunities to creatively reuse items, reducing the overall waste generated in the community.

Summary of Program:

Creative Reuse this workshop is organized for First Year B.Tech Students of SITRC. Event is co-ordinated by Prof. Vandana P. Chitodkar Ma'am, where she guided students about adverse effect of Non-biodegradable things on environment and how to utilize the thing again. She also explained about 3R principle – Reduce, Reuse and Recycle. By using this workshop students number of articles.

The "Creative Reuse" workshop successfully achieved its objectives, empowering participants with valuable skills, knowledge, and a heightened sense of environmental responsibility. By promoting creativity, awareness, and community engagement, the workshop laid the foundation for a more sustainable future. Continued efforts in organizing similar initiatives and expanding community outreach will contribute significantly to ongoing environmental conservation efforts.
