- 5.Event Resource Person Details:** Dr. Manjusha Vyavhare, Dr. Kamini Nalawade, Prof. Rashmi Nayak
- 6.Name of Event Coordinator:** Prof. Aniket Patil

- 7.Event Objective:**
 1. Awareness for teenage girls student about personal hygiene
 - 2.Visit to local govt village school to create awareness about personal hygiene

8.Event Summary:

Civil Engineering Students Association (CESA) and Department of Civil Engineering has organized program to Celebrate of Women's Day 2022 in which guest lecture were arranged regarding Innovations and technology for gender equality and some fun games were organized.

9.Event Outcomes

The challenges that menstruating girls, women, and other menstruators face encompass more than a basic lack of supplies or infrastructure. While menstruation is a normal and healthy part of life for most women and girls, in many societies, the experience of menstruators continues to be constrained by cultural taboos and discriminatory social norms. The resulting lack of information about menstruation leads to unhygienic and unhealthy menstrual practices and creates misconceptions and negative attitudes, which motivate, among others, shaming, bullying, and even gender-based violence. For generations of girls and women, poor menstrual health and hygiene is exacerbating social and economic inequalities, negatively impacting their education, health, safety, and human development.
