FOUNDATION

Department Of Computer Engineering

Notice

Date: 17/02/2024

All the students of SE,TE and BE Computer Engineering are here by informed that our department is organizing Value Added Program on “Java Framework & Live Project Demonstration”, on 19th Feb to 22nd Feb 2024 . In the view of same all students are instructed that attendance is compulsory for the same.

Venue: SITRC (Computer Engineering Seminar Hall, C Building)

Time: 10:30 AM

Prof. (Dr.) Ankita.V.Karale

Head

Department of Computer Engineering
Sandip Institute of Technology and
Research Centre,
Mahirawani, Nashik-422 213

CHIEF PATRON

Hon. Dr. Sandip N. Jha

(Chairman, Sandip Foundation, Nashik)

PATRON

Hon. Prof. Pramod Karole

(Academic Facilitator, Sandip Foundation, Nashik)

PRINCIPAL

Dr. M.M.Patil

(Principal, SITRC, Nashik)

CONVENER

Dr. A.V.Karale

(HOD, Department of Computer Engineering, SITRC, Nashik)

CO-ORDINATOR

Prof. Rais Shaikh

Asst. Professor, Dept. of Computer Engineering

RESOURCE PERSON

Mrs. Archana Nigade

(Orange Itech, Pune)

Venue and Time

Time: 10AM To 4.00PM

(19th – 22nd Feb 2024)

Four Days

Value Added Program

on

**“Java Framework & Live Project
Demonstration”**

(19th – 22nd Feb 2024)

Organized By,

**Department of Computer Engineering,
Sandip Institute of Technology and
Research Centre,
Nashik- 422213.**

ABOUT INSTITUTE

Sandip Institute of Technology and Research Center (SITRC), the top Engineering colleges in Nasik, Maharashtra is established in 2008 and is approved by AICTE, New Delhi and affiliated to Savitribai Phule Pune University, Pune. SITRC's Computer Engineering & Mechanical Engineering (UG) programs accredited by NBA, in February 2020. The Institute is accredited by NAAC with A Grade (CGPA 3.11 Score).

SITRC have an ambiance that stimulates intellectual thinking and academic proceedings.

The institute has following major credentials at its credit.

- ✓ Accredited by NBA Computer & Mechanical Engineering
- ✓ Accredited with A Grade by NAAC
- ✓ Affiliated to SPPU Pune
- ✓ Green and Clean Campus

ABOUT DEPARTMENT

The Computer Engineering Department at the Sandip Institute of Technology and Research Centre affiliated to Savitribai Phule Pune University, Pune offers at engineering programs leading to the degree of Bachelor of Engineering (B.E) and Master of Engineering (M.E.) in Computer Engineering. Department had established in the academic year 2008-2009. The changing development scenario and IT industry expansions are creating increasing growth opportunities for a Computer Engineering professional. We believe in regular student industry interface and thereby consistently organizes many seminars, workshops by eminent personalities in the IT field.

DEPARTMENT VISION

To evolve center of excellence in computer engineering for rendering services to the industry and socio economic fabric of nation.

DEPARTMENT MISSION

To achieve the vision, the department is committed to:

M1. To produce globally competent professionals by providing research opportunities and inculcate leadership qualities.

M2. To educate the student with strong fundamental of computer engineering to expose them in field of design and development of software that helps them to become a successful entrepreneur.

**M3.* To facilitate the student and faculty to work with Foss tools and ICT based technologies for solving real world problem by effective teaching-learning practices.

COURSE CONTENTS

The VAP will cover a wide range of topics, including but not limited to:

- ✓ Introduction to Java.
- ✓ Introduction to database and cloud concepts.
- ✓ Spring Framework
- ✓ Hibernate framework
- ✓ Java Server Faces (JSF)

IMPORTANT DATES

Last Date of Registration:

19 Feb 2024.

FOUNDATION

Department Of Computer Engineering

Course Contents

Day 1: Spring

Spring Framework is considered one of the most versatile Java frameworks to simplify developing enterprise-class applications. Since its introduction, the open and durable Framework has seen a considerable increase in popularity, to the point that it's often described as the Framework of frameworks. Spring is a loosely coupled, open-source Java application framework. Spring is light and is often considered an alternative to the control container used on the Java platform. It provides features for developing web-based applications and is used to create Enterprise Java Applications (JEE).

Day 2: Hibernate

The Hibernate framework is another tool for mapping objects using the Java programming language. An incredible framework offers a framework that maps an object-oriented domain model and an underlying database. It provides information on mapping Java classes to the configuration of databases.

Day 3: Google Web Toolkit (GWT)

Based on the title itself, Google Web Toolkit was created by Google. One can use this tool to design sophisticated Internet Java apps. The capability of Google Web Toolkit to convert Java code into JavaScript code - including custom code based on the browser- is among the attributes that make it stand out compared to other Java Frameworks.

Day 4: Java Server Faces (JSF)

Java Server Faces one can use to create user interfaces based on components used in web-based applications. It was made a formal standard as part of the Java Community Process being part of the Java Platform, Enterprise Edition. Built on an MVC architecture pattern, Java Server Faces simplifies the design of user interfaces (UI) that are server-based applications through reused UI components within a page.

Title: Report on “Java Framework & Live Project Demonstration”

Date: 19th To 22nd Feb 2024.

Venue: Computer Engg. Department, SITRC (Seminar Hall C Building)

Resource Person Details: Mrs. Archana Nigade (Orange Itech, Pune)

Name of Event Coordinator: Prof. Rais Shaikh

Participants: SE, TE students

Event Duration: 24 Hours

Event Objectives & Outcomes

Objectives of Activity:

1. Learn & understand different Java Frameworks, software tools.
2. Design and develop useful applications using latest framework.

Outcomes of Activity:

Students got the tactics related to:

1. Students able to know recent framework that is used in IT industries.
2. Students learned various applications of different Frameworks.
3. Students learned various Coding style of Frameworks.

Description of Event:

The Value Added Program on **Java Framework & Live Project Demonstration** was organized by Computer Engineering Department, Sandip Institute of Technology and Research Center on the Date: 19th to 22nd Feb 2024. The Program was started with welcome & felicitation of Mrs. Archana Nigade (Orange Itech, Pune).

The Program was attended by 100 students from Computer Engineering Department. The Experts guided students about the requirements of the market. She explained the students how Java Framework gives you the benefits for Empowerment and how it is useful for the society and also holds the future of computer science. She also explain lecture to aware students about Java is one of the most popular Programming languages used to create Web applications and platforms. It was designed for flexibility, allowing developers to write code that would run on any machine, regardless of architecture or platform. According to the Java home page, more than 1 billion computers and 3 billion mobile phones worldwide run Java. Java is used to build applications and platforms for a number of devices, including computers, laptops, gaming consoles, Blu-ray players, car navigation Systems, medical monitoring devices, parking meters, lottery terminals and smartphones.

The Program was skillfully anchored by Prof. Rais Shaikh, who guided the audience through the program, ensuring a smooth and engaging flow of activities.
