Report : Expert lecture on “How to file patent”

Sandip Institute of Technology & Research Centre, Nashik

Date: 26-10-2019

Resource Person: Dr.P.R.Bhaldhare

No. of participants: 82

Objectives:

- 1) To impart knowledge about the patent filing process and its significance in protecting intellectual property.
- 2) To equip attendees with the necessary information and steps involved in securing patents for their inventions.

Outcomes:

1. A deeper understanding of the patent filing process and its significance in protecting inventions.
2. Clarity on the criteria for patentability and the importance of conducting prior art searches.
3. Knowledge of international patent protection options for global innovation.
4. Insights into the strategic aspects of patent commercialization and enforcement.

Topics Covered:

During the lecture, the following key topics were covered:

1. **Introduction to Intellectual Property:**

The lecture commenced with an overview of intellectual property rights, emphasizing the importance of patents as a means of protecting innovations and inventions.

2. **Understanding Patents:**

Attendees were introduced to the concept of patents, their types, and the rights conferred upon patent holders.

3. **Patentability Criteria:**

The lecture provided insights into the criteria that inventions must meet to be eligible for patent protection, including novelty, non-obviousness, and utility.

(FE)

4. **Patent Filing Process:** A detailed step-by-step explanation of the patent application process was presented, including patent searches, drafting a patent application, and submission to the patent office.
5. **Patent Examination and Grant:**
The lecture outlined the stages of patent examination and the importance of responding to patent office actions.
6. **International Patent Protection:**
Attendees were made aware of international patent protection through mechanisms like the Patent Cooperation Treaty (PCT) and the importance of global patent strategies.
7. **Commercialization and Enforcement:** The lecture discussed strategies for commercializing patented inventions and the significance of patent enforcement in protecting intellectual property.
