Department of Engineering Sciences and Humanities  
Sandip Institute of Technology and Research Centre, Nashik (MS)

DTE Code: 5109

Date:4/3/ 2022

**Name of Program- Debate Competition on "Technology and Society"**

**Event Coordinator:** Assistant Prof. Dr. Renu P. Pathak SITRC

**Participants:** FE students (ESH Department)

**No. of Participants: 47**

**Venue:** CR- 1, A- Building SITRC.

**Aim:**

The aim of the debate competition was to enhance students' critical thinking, public speaking, and analytical skills by engaging them in a structured argumentation process on the topic "Technology and Society."

**Objective:**

- To foster a critical examination of the impact of technology on society among first-year engineering students.
- To develop students' abilities in research, argumentation, and public speaking.
- To encourage active participation and engagement in intellectual discourse.
- To provide an opportunity for students to articulate and defend their perspectives on a contemporary issue.

**Summary**

The debate competition on "Technology and Society" was conducted with enthusiastic participation from first-year engineering students. The competition was structured with two teams: one arguing in favor of the positive impacts of technology on society, and the other highlighting the potential negative consequences.

*Key Points Discussed:*

**1. Positive Impacts:**

- Technology as a driver of innovation and economic growth.
- Enhancements in healthcare through medical technology and telemedicine.
- Improvements in communication and access to information through the internet and social media.

**2. Negative Consequences:**

- The potential for job displacement due to automation and AI.
- Privacy concerns and data security issues with increasing digitalization.
- The societal divide created by unequal access to technology.

The competition began with opening statements from both teams, followed by a series of rebuttals and counter-arguments. The students provided well-researched and articulate points, showcasing their understanding of the topic and their ability to engage in intellectual discourse.

The judges, comprising faculty members from the engineering and humanities departments, evaluated the teams based on the clarity of arguments, evidence presented, rebuttal effectiveness,

and overall presentation skills. The winning team was praised for their comprehensive research and persuasive argumentation.

## **Outcome**

The debate competition successfully achieved the following outcomes:

- Students demonstrated enhanced critical thinking and public speaking skills.
- Participants developed a deeper understanding of the complex relationship between technology and society.
- The event fostered a spirit of healthy competition and collaborative learning among students.
- Students gained confidence in presenting and defending their arguments in front of an audience.

## **Conclusion**

The debate competition was a resounding success, fulfilling its aim and objectives. It provided first-year engineering students with an invaluable opportunity to refine their critical thinking and public speaking skills while exploring the multifaceted impact of technology on society. The event concluded with a recognition ceremony for the participants and winners, encouraging continued engagement in such intellectually stimulating activities.
