**Organised By:** Sandip Foundation's,

Department of Engineering Sciences and Humanities

Sandip Institute of Technology and Research Centre, Nashik.

**Participants :** Staff and Students of First Year Engineering of Sandip Institute of Technology and Research Centre, Nashik.

**Introduction :**

**Swachh Bharat Mission (SBM)**, Swachh Bharat Abhiyan, or Clean India Mission is a country-wide campaign initiated by the Government of India in 2014 to eliminate open defecation and improve solid waste management. It is a restructured version of the Nirmal Bharat Abhiyan launched in 2009 that failed to achieve its intended targets.

Initiated by the Government of India, the mission aimed to achieve an "open-defecation free" (ODF) India by 2 October 2019, the 150th anniversary of the birth of Mahatma Gandhi through construction of toilets. An estimated 89.9 million toilets were built in the period. The

objectives of the first phase of the mission also included eradication of manual scavenging, generating awareness and bringing about a behavior change regarding sanitation practices, and augmentation of capacity at the local level.

The second phase of the mission aims to sustain the open defecation free status and improve the management of solid and liquid waste, while also working to improve the lives of sanitation workers. The mission is aimed at progressing towards target 6.2 of the Sustainable Development Goals Number 6 established by the United Nations in 2015.

The campaign's official name is in Hindi. In English, it translates to "Clean India Mission". The campaign was officially launched on 2 October 2014 at Rajghat, New Delhi by Prime Minister Narendra Modi. It is India's largest cleanliness drive to date with three million government employees and students from all parts of India participating in 4,043 cities, towns, and rural communities.

### **Outcomes :**

- Staff and Students actively participated to promote cleanliness through Swachhata Abhiyan.
- The Swachhata Abhiyan can be successful only when it will get the support of youths as well.
- A clean India will come out to be the best tribute to the father of the Nation Mahatma Gandhi.

### **Summary :**

Thus the nationwide cleanliness campaign the Swachh Bharat Mission or clean India Mission was celebrated in Sandip Institute of Technology and Research Centre, Nashik for teachers and students. The Health Awareness program was also organized with the main objective to promote cleanliness and health sensitive issues and a sense of well being among the participants extensively. The college was successful to organise the

programme by conveying the message that one should make cleanliness as a habit. The main aim of organizing this programme was to incorporate the sense of cleanliness and sanitation among the students so that they can keep their environment and surroundings clean and also maintain the cleanliness mentally and physically.
