**Department of Engineering Sciences and
Humanities**

Date: - 23 /03/2022

NOTICE

All students of the F.E are hereby informed that the department has organized the “Workshop on Basic of C Programming” on Date 25th March 2022 at 10:00 A.M.

The workshop aims to inspire an interest in C programming and its relevance in engineering projects. It is compulsory for all students to attend the workshop.

Venue: Computer Centre, Core Building, SITRC.

Prof. A. K. Raundal
Event Coordinator

Prof. J. M. Shah
HOD, ESH

Activity Report
Of
One Day Workshop on
Basic of C Programming

A.Y. 2021-22

SANDIP
FOUNDATION

Organized by,

Sandip Foundation's
Department of Engineering Sciences and Humanities
Sandip Institute of Technology and Research Centre, Nashik (MS)
DTE Code: 5109

Date: 25th March 2022

Name of Program: One Day Workshop on Basic of C Programming

Resource Person: Prof. Naresh Thoutam, Asst. Professor, SITRC

Event Coordinator: Prof. A. K. Raundal, Asst. Professor, SITRC

Participants: FE students (ESH Department)

No. of Participants: 180

Venue: Computer Centre, Core Building, SITRC.

Aim:

The primary aim of the workshop was to provide first-year engineering students with a solid introduction to the fundamentals of the C programming language.

Objective:

The objectives were as follows:

1. To familiarize students with the importance of programming and C language in engineering.
2. To introduce students to the basic structure of C programs and its syntax.
3. To explain key concepts, such as data types, variables, operators, and input/output functions.
4. To facilitate hands-on learning through practical exercises.
5. To inspire an interest in C programming and its relevance in engineering projects.

Outcomes:

1. To familiarize students with the importance of programming and C language in engineering.
2. To introduce students to the basic structure of C programs and its syntax.
3. To explain key concepts, such as data types, variables, operators, and input/output functions.
4. To facilitate hands-on learning through practical exercises.
5. To inspire an interest in C programming and its relevance in engineering projects.

Summary Report of Workshop:

The workshop began with an official inauguration and a warm welcome to all participants. The organizing committee explained the purpose of the workshop and the importance of C programming in engineering. The workshop featured a keynote presentation by an experienced facilitator. The presentation covered essential topics, including: Introduction to C language and its history, the basic structure of a C program, Data types and variables Operators and expressions, Input and output functions. The workshop included a live coding demonstration by the facilitator. This demonstration illustrated the step-by-step development of a simple C program to show practical application of the concepts. Participants were divided into breakout groups to work on practical coding exercises related to the topics covered in the workshop. This allowed students to practice writing C programs and apply what they had learned. The guest speaker shared insights into the practical aspects of C programming in engineering projects and its significance in real-world applications. This provided students with a perspective on how C programming skills could benefit them in their academic and professional journey. In conclusion, the workshop successfully introduced first-year engineering students to the foundations of C programming, equipping them with essential knowledge to begin their journey into the world of programming and engineering.
